PLAN 18 BLK D PT LOT 15 PT LOT 16

The applicant is requesting relief from the requirements of By-law 1229 as amended to permit:

a) Section 11.2 (c)(i):

To permit an unenclosed porch and stairs to encroach 105 inches*, whereas the By-law permits 18 inches. *Although encroachment request is 105 inches, the grandfathered footprint of the previous porch already encroaches approximately 90 inches; the request relative to current grandfathered encroachment is 15 inches (the width of 2 steps).

This application relates to a proposed replication of the historic front porch, as recommended by Heritage Markham. **(Heritage District, Ward 4)**

The Secretary-Treasurer introduced the application.

The agent Nigel Fung appeared on behalf of the application. The porch at the property was deteriorating so they are now looking to rebuild it. As the house is a heritage structure, they have attempted a rebuild which is in keeping with the heritage characteristics.

Elizabeth Brown of 65 Sherwood Forest Drive spoke on the application. She raised potential building and accessibility issues.

Susan Taylor of 120 Main St N. spoke on the application. She believes the property should be accessible

Committee member Jeamie Reingold commented that the design is appropriate.

Committee member Arun Prasad asked about the municipal grant that they obtained for this porch.

Mr. Fung responded they received a grant and brought forward a proposal to staff for their review.

Manager, Zoning and Special Projects, stated that accessibility issues would be addressed by Building Standards Dept. after, if the variance application was approved. Accessibility would look at a variety of issues for a building, including potential ramp access. He further believes the plans had been initially circulated and reviewed by Building staff.

Committee member Sally Yan stated she recognizes the accessibility issues would be addressed separately with the Building Dept.

Committee member Kelvin Kwok further commented he recognizes that this is a 'technical' type variance.

Committee member Arun Prasad requested that Heritage planning staff clearly outline the requirements of their municipal grant program.

The Secretary-Treasurer introduced the application.

The owner Nigel Gibson described that this is a coach house for his mother to reside in. She would not need access to a car.

Holim Ng of 12 Bittersweet St spoke on the application. He indicated he recognizes the proposal and its use for his mother. However, it appears to be quite large and would be built closer to his property.

The agent Eddie Peres spoke on the application as well. This coach house is to accommodate the client's mother. He indicated that the setbacks here would comply with zoning by-law.

Committee member Patrick Sampson indicated, through visual picture, showed how the previously approved coach houses, or cantilevered second storeys, has created, in his view, substantial structures.

Mr. Ng asked if this is minor as it appears to increase lot coverage of 50%.

The Chair responded minor is not defined in the Planning Act and it is up to the Committee to determine if this first test, relating to minor, is met with this proposal or not.

(West District, Ward 1)

The Secretary-Treasurer introduced the application.

The agent Jim Kotsopoulos spoke on the application. The property had been severed through a 2017 consent application. The property has remained vacant. A lot coverage variance had been removed. Also, a number of letters of support were solicited by them. Some residents have submitted comments with concerns with trees. Mr. Kotsopoulos indicated that the majority of trees on the property will be protected. The main wall height appears 'larger' due to a below grade cellar. The circular driveway proposal is also not inconsistent with other houses of the area.

The Chair commented on the overall structure and its orientation.

Committee Jeamie Reingold believes the proposal will be compatible for this subject neighbourhood.

The Chair further stated that the proposal should be more consistent with the policies of the Official Plan in terms of being 'in keeping' with the neighbourhood character.

Committee member asked about the height of the building as proposed.

Mr. Kotsopoulos responded that due to the reduction in the net floor area ratio, as per discussions with staff, that has acted to impact the building height.

Committee member Kelvin Kwok spoke on the application. He believes the variance requests, or the numerical values, seem minor.

Committee member Patrick Sampson does indicate design is not part of the four tests but will assess the proposal in a holistic manner.

Committee member Jeamie Reingold commented that this is a unique area in terms of house composition of this neighbourhood.

Mr. Kotsopoulos commented that he had been speaking with the client and that they are amenable to incorporating comments from the Committee.
